The only remedy for this disaster is an enlightened public opinion that will compel legislators to pass laws for the cultivation and protection of the woods in spite of the opposition of lumbermen and squatters. This opinion we look to you to awaken by writing, speeches, conversations with your local representative, local societies formed for this purpose, and by public meetings of such societies, at which we will be glad to be represented.

The law should provide for the retention of all land in these districts owned by the State, the purchasing of all other lands sold at the tax sales, provisions for the purchase of such adjoining lands as in the opinion of the Commissioners of Forests would be suitable at a just price, in no case exceeding say \$2.00 an acre, and the appointment of Forest Commissioner, to have charge of the forests, with full power to protect them and to make recommendation to the Legislature for further legislation.

May we have your cooperation in this matter?

With hearty good will I am your fellow citizen,

CHAS. E. WHITEHEAD.

61 Wall Street, }
NEW YORK CITY, Dec. 8th, 1884. }

DEAR SIR :

Understanding that you are interested in the preservation of woods and waters I enclose you a copy of the Constitution of the Society for the Protection of Forests and ask your earnest co-operation.

We have at the sources of the Mohawk and Hudson, also at the sources of the Delaware and Susquehanna Rivers, abundant primeval forests, from which since our race came to this land those rivers have been fed, and an ample area of mountainous country has been kept green and moist, from which vapors and coolness and springs have issued all summer long and to which those who were weary with work resorted for rest.

Latterly the encroachments of squatters, the spoliation of lumbermen and the clearing up of temporary settlers, with or without title, has contracted the area of forests and materially injured the woods that remain. Lakes have been dammed and suddenly drawn off to carry logs. State lands and lands of non-resident owners have been pillaged. Large areas have been burned over by negligence of lumberers or those clearing up lands. At present a great portion of these districts are reduced to the condition of desert or like the Bad Lands of the West, being of little value to man or beast, and dangerous as the source of sudden floods from the rain that was formerly retained by the undergrowth to form a regular and gentle supply of water.

The only remedy for this disaster is an enlightened public opinion that will compel legislators to pass laws for the cultivation and protection of the woods in spite of the opposition of lumbermen and squatters. This opinion we look to you to awaken by writing, speeches, conversations with your local representative, local societies formed for this purpose, and by public meetings of such societies, at which we will be glad to be represented.

The law should provide for the retention of all land in these districts owned by the State, the purchasing of all other lands sold at the tax sales, provisions for the purchase of such adjoining lands as in the opinion of the Commissioners of Forests would be suitable at a just price, in no case exceeding say \$2.00 an acre, and the appointment of Forest Commissioner, to have charge of the forests, with full power to protect them and to make recommendation to the Legislature for further legislation.

May we have your cooperation in this matter ?

With hearty good will I am your fellow citizen,

CHAS. E. WHITEHEAD.

The Executive Committee shall have full power to fill any vacancy which may occur from death, resignation or otherwise among its officers, and any appointment so made by it shall be valid until the next annual election.

ARTICLE XIV.—*Matters not provided for in Constitution*.—All matters not particularly provided for in the Constitution shall be controlled by the Executive Committee until specially passed upon by the Association at a regular meeting.

ARTICLE XV.—*Meetings*.—This Association shall assemble at such time and place as the President and Executive Committee may designate for the transaction of the general business of the Association, and seven members shall constitute a quorum for the transaction of any business which may be brought before them.
